

Reliefnet Reverte LLIN Dome

Made with the same long lasting insecticide incorporated mosquito netting used in all Reliefnet Reverte LLINs, our Reliefnet Reverte LLIN Dome was specially designed to meet the needs of individuals whose lifestyles are not easily accommodated by traditional rectangular or circular bednet configurations. Instead, the unique design of the Reliefnet Reverte LLIN Dome was developed especially for individuals who spend night time sleeping outdoors. Yet the Dome is also a great solution for indoor sleeping areas where biting insects may be a concern.

They are light weight, easy to transport and easy to set up

Ideal for use in either indoor or outdoor sleeping areas, Reliefnet Reverte LLIN Dome was designed with the end- user in mind. Made with a tough but lightweight, rip-resistant, waterproof nylon fabric floor, that keeps ground moisture from soaking through and is strong enough to withstand rigorous use. Yet the fabric is breathable and prevents insects from biting through it. The dome is made with reinforced a Reliefnet Reverte LLIN net fabric upper portion to protect the user from insects. Sturdy fiberglass reinforced poles provide support to hold the net fabric away from the body, allowing for maximum inner space, and keep mosquitoes and other biting insects at a distance.

Reliefnet Reverte LLIN Dome is easy to transport and is available with an optional carrying bag made of the same sturdy, rip-resistant, waterproof nylon fabric as the floor. The bag has two comfortable handles for easy carrying and a rugged zipper to secure the tent and poles.

Reliefnet Reverte LLIN Dome can be easily assembled in a matter of seconds by inserting each of the two strong but lightweight poles into their respective reinforced loop stitched pockets. When disassembling, the poles readily fold into smaller sections for easy transport.

Color Options

Reliefnet Reverte LLIN Dome is available in three color choices: dark green, black and in a camouflage striped pattern (alternating tan, dark green and brown stripes).

Available in two sizes

Reliefnet Reverte LLIN Dome is available in two sizes: a one-person or two-person dome. Both sizes provide for maximum height, roominess, and comfort. Designed for use in all temperatures, both sizes can easily accommodate sleeping bags.

Both sizes include a conveniently placed and ample zipper doorway that has a sturdy zipper closure that can be operated from both inside and outside of the dome.

Dimensions:	One-person Dome: 215cm L x 90cm W x 100cm H Two-person Dome: 225cm L x 127cm W x 120cm H
